Vision & Hearing Provided To Pre-Kindergarten Children

The Bay County Health Department will once again provide free vision and hearing screenings for Pre-Kindergarten children as required by the State of Michigan's Public Health Code Act 268 of 1978 before entering Kindergarten .

The purpose of screening children of this age is to detect any vision or hearing defects as early as possible. Difficulties can often be remedied if discovered at a time when easiest to treat.

Please contact the school your children will be attending for a schedule of the screening sites and times or for more information visit the hearing and vision webpage at <http://www.baycounty-mi.gov/health/hearingvisionscreening.aspx>.
