#### Benefits of Breastfeeding to Mom and Baby

Breastfeeding is a special time between mom and baby and has many benefits for both. A mothers milk contains the right amount of nutrients for baby including, fat, carbohydrates, proteins vitamins and minerals. It is also full of antibodies from mom to help fight off illness.

Mom's who breastfeed have a decreased risk of illness and tend to lose weight faster. Babies who breastfeed have a decreased risk of becoming obese, get sick less often, have better mouth and dental development, and it is easier for baby to digest.

As a new mom you may have heard many things on how to feed your baby. You may know that breastfeeding is the best way to give your baby a healthy start in life and you may wonder how you can fit breastfeeding into your life.

Mothers everywhere have discovered that breastfeeding **CAN** work and that there is support to help mothers be successful. Your WIC Breastfeeding Peer Counselor can Help!

### What is a Breastfeeding Peer Counselor?

A Breastfeeding Peer Counselor is a mom just like you who has breastfed her own baby.

She has a passion for supporting and helping mothers succeed in breastfeeding their babies.

# What does a Breastfeeding Peer Counselor do?

- Listens
- Talks to moms about their thoughts on breastfeeding.
- Discusses breastfeeding with pregnant moms.
- Helps new moms get breastfeeding off to a good start.
- Answer questions.
- Refers to a lactations consultant if needed.
- Helps you find ways to stay close to your baby after you return to work or school

#### Your Breastfeeding Peer Counselor will...

- Provide you with education and information on the benefits of breastfeeding
- Provide you with tips on how to breastfeed comfortably, even in public.
- Help you with preventing and solving common breastfeeding problems
- Facilitate a breastfeeding class or provide one-on-one support via a phone call or individual appointment
