

# Non-Standard Section Number Codes

p.1

## ***Parcel-ID Codes for Townships with Duplicated Section Numbers due to Boundaries Extending into Adjacent Town & Range***

All Townships have some Sections numbered 1-36 (e.g. Parcel Number Codes -001 through -036). Some townships, however, have political boundaries extend into the neighboring Town & Range creating a situation in which a section number may occur more than once in that political township. Townships without repeated section numbers are not listed below.
